

## ASCOLTI STAZIONI ABUSIVE GAMMA RADIOAMATORI

Eccovi il sunto del REPORT del agosto 2015 di ben 19 pagine (scaricabile il pdf dal sito della AIR ) dal collega **DK2OM coordinatore della IARU regione 1:**

Ci sono MOLTE chicche, dalle **Number Station** ai vari **pirati e pescherecci ai militari russi** nelle nostre bande OM !

### **Russian OTH radar Gorodezh on 14 MHz**

The Russian OTH radar in Gorodezh (near Nizhny Novgorod) was daily causing strong QRM and often with splatters on 14 MHz.

### **Russian MILITARY traffic increased**

Russian MIL traffic on 7 and 14 MHz increased. Modes: A1A (CW), F1B and PSK.

The **Russian Navy on 14.192 MHz** on F1B was active very often. Screenshot on 14192.0 by DK2OM with W-Code. Showing the idling F1B with ACF = 2 (ACF = auto correlation frequency). ACF 2 means that the system is only switching between mark and space without any information.

### **OTH radars 10 MHz**

OTH radars from Cyprus and Turkey often disturbed the 10 MHz-band with 50sps and 20 kHz wide signals.

### **Fishery traffic now on 1.8 MHz**

I found Spanish fishermen on 1810.0 MHz

### **3.504 MHz pirati italiani**

### **3.500 e 3.540 Mhz pescatori spagnoli con lo SCRAMBLER !!!**

### **7.039 MHz Cluster beacon – Vladivostok RUSSIAN Navy - “RJS” – now on 7.509 MHz**

### **7.000 MHz Italian pirates talking about the sea – also 11.08.2015 at 16:00 utc**

### **7.012 e 7.045 pescatori**

**14.182 MHz** CIS-50-200 – RUSSIAN navy Kaliningrad

C'e da notare come vi siano tantissimi pescherecci specialmente spagnoli, ma anche marocchini o russi che usano le HF e anche con lo scrambler !
